To remember those who have been lost through suicide in our communities and to acknowledge those bereaved family members, friends and associates living beyond suicide

The day will feature the words and thoughts of people bereaved by suicide, a presentation by the Caloundra Living Beyond Suicide Support Group and other guest speakers. Activities on the day will include a brief Remembrance Ceremony. This will be followed by the release of doves and opportunity for individuals to place Flowers of Remembrance into the waters of the river in acknowledgement of the significance of this day for our communities. Children's activities with parental supervision will also be available.

Please feel welcome to bring photos of those you have lost and yourselves – as people who continue to live beyond suicide.

All are welcome to bring a picnic lunch, tea & coffee, etc. for an informal sharing time after this event. Please feel free to bring folding/portable chairs etc.

This community event is held in conjunction with World Suicide Prevention Day (held on September 10th) and hosted by United Synergies, with support from:
